

Simplicity Survey Scorecard

The Simplicity Survey was created to provide an overall score on the level of complexity in your personal life and a score on the level of complexity in five specific areas: spiritual health, mental health, physical health, home building, and home management.

During our meeting we will review your scores and define next steps to support your personal journey towards greater simplicity.

Use the completed survey you were emailed to complete the following table.

Survey Responses	Number Answered	Let's Do The Math	Let's Do The Math
Strongly Agree		$\times 0$	$= 0$
Agree		$\times 1$	$=$
Neutral		$\times 2$	$=$
Disagree		$\times 3$	$=$
Strongly Disagree		$\times 4$	$=$
Add all of column four to get your total out of 100. 		TOTAL	$= 100$
